“ *I hated her and she hated me. She was the bane of my college experience and ruined my career plans. I feel not the slightest sympathy for her death.*

I know it is bad form to speak ill of the dead, but I don't care. I will take any curse on myself and my children.

“ *So many many fond memories of Mrs. Dr. Meier. She showed a heart for special needs students and was a real asset to Southside Elementary. I learned so much from her as I served on the Teacher Education Committee at Martin. I came to rely on her for advice and encouragement in my position. Grace shaped the minds of new teachers thus influencing many generations yet to come. Dr. Meier is an icon of education in our community. I cherished her friendship. She will be greatly missed. Sympathy and love to her family.*

“ Grace was one of the kindest souls I’ve ever met. She was my professor in the Education program at Martin. Always encouraging, inspiring, and leading you to be the very best you could be. Grace always took the time to say a kind word of encouragement and to ask about how I was doing, and it was evident that she genuinely cared. Prayers of comfort and peace for you all, she will truly be missed.

“ Grace was one of the first to welcome me in 2001 when I began working in the MMC library...we became good friends working together on building a children’s section of books in the library and collecting text books used at the public school in Giles County for the Education students. She always had a good word and a smile for anyone crossing her path so I know she’s welcomed by loved ones who have gone before her to our home in Paradise. Love and prayers for peace for her family. Loved her dearly!

“ Grace was my neighbor for 17 years. She was my patient and fellow church member. Many don't know of all the lives Grace changed. All that she helped. She wasn't open about it, but she was a Saint in every sense of the word. I loved her dearly.
