“ He and I shared life helping each other when needed. We did not agree on life styles and he had his own still and no one was going to change it, is what he always reminded me of. I miss him.

Dean and I were friends back in junior high. He and Michael used to spend time after school at my house. He was a caring, compassionate guy. He always was willing to help in any way he could. He will be missed by many people and many prayers are sent to the family.

BR

Dean was my uncle that I remember always being around as a child. When he married my mom he then became my step dad. There were times I despised him and then times that I would laugh my head off. He was very helpful with handy work. When he worked he was damn good at it. We spent many a times on the river fishing and he always found something to laugh about. The most memorable thing I remember is him teaching me how to 2 step. I was probably about 10 years old and he had me on the concrete pavilion at Magnolia Gardens and we would dance all over that place. And there was a motorcycle experience, we drove from Channelview to Crosby and he had me pulling a string on the bike for something to keep it going. He would always find a way to make things work. A piece from this or that maybe but it would work for the moment it was needed. He is missed and will be for a long time by many. Love ya Uncle Dean. Thank you for the good memories.
