“*Lucy was so important in my life. My mother, Irene Oglesby, and Lucy went to LPN school together at Sumner Co Hospital. Boy, did they ever have stories to tell us!*

She was instrumental when my dad was in the hospital with renal failure. She would pick us up from the airport and take us to the hospital. When he died, she was the strong arm that we all leaned on.

When my mother was diagnosed with dementia and we moved her to San Antonio, Lucy was always there for me to talk to and get advice from.

She will be greatly missed as she was loved dearly.
