“ Several years ago while I was handbell director at FUMC I was trying to find some additional ringers for the choir not having much success. Margaret decided to give it a try. Mattea was playing and I do not remember if Megan was playing at that time or not. Larry liked to listen and thought that it was best if He continued. A year or so later I found out the reason Margaret decided to play was "She felt SORRY for Me" not having much luck finding players. I was happy that she did.
Peace of the Lord Be With You Larry, Mattea, and Megan.
