“ Anthony and my brothers played softball and basketball with Brian and Keith. I graduated a few years ahead of Brian. We have always know The Rogers Family ❤️

A few weeks ago we had the Minor Hill Alliance meeting. I was sitting at the opposite end of the table of him. You could tell by the expression on his face that he had ideas to get started. That afternoon Brian and Julie volunteered to put the benches together. Brian was a wonderful man and he will be missed in the Minor Hill Community. Our thoughts and prayers are with each of. GOD BLESS

Although I didn't work directly with Brian over the years, I have such vivid memories of Brian's calming smile when I would run into him or see him from a distance. He will be greatly missed. My condolences to the family and Gods grace and healing in the days ahead. Much love, Chrissa

“ *I had just started working with Brian after Diane Caine retired and he took over her role at NASA in the Organizational Development area. Brian brought such a positive energy to our meetings. He and I were also partnered during the Inter-cultural development training class and we had plans to follow up and meet regularly to discuss diversity and different cultures. I will miss him. Sending my deepest condolences!*

“ To Julie, the boys, and the Rogers family,

Words cannot express the sorrow that we share in the passing of our dear Brian. God knows and we will come to understand it by and by! Paul said that if one of his dearest friends had died, he would have had sorrow upon sorrow. Well, we know what that feels like now. "Phil 2:27" But we have hope in Christ that we will see our dear brother in the morning.

Love,

Veronica Williams - Friend and NASA Colleague

Brian, you are deeply missed from the whole NASA family. I picked pink because every time you wore pink, everyone joked and smiled more in the office. We love you and pray you rest in eternal peace in heaven.
